

Dear Senator:

As a relative of a State Corrections Officer, I want to share my concerns with the overcrowding and understaffing in our state prisons.

Please support Senate Bill 362. We need to make sure that our state prisons have enough staff to supervise the inmates. Corrections officers deserve to have enough officers on duty to watch their backs and to do their jobs properly.

Officers' families want them to come home safely after each shift. We know the job is risky, but there should not be unnecessary risk.

Our families need your help now. Thank you for your interest.

Sincerely,
