For over **10 years** Nittany Brokerage has been advising correction officers in over 16 institutions. We are ever growing as we are referred in by your fellow officers and cannot wait to support them all. We are very proud and honored to be able to help the officers in the

Commonwealth of Pennsylvania Department of Corrections with their  (457) Deferred Compensation Retirement Plan.

There is a  Charles Schwab self-directed account (SDA) **inside** your current plan, with no cost to open, with a lot more investment choices that we can actively manage according to your personal risk tolerance.

The key component to our services is that the management fee comes out of that account, so we don't have to send you a bill or ask you for payment!
